WORK EXPERIENCE

Paycom

Irving, TX

Software Developer (PHP 8, TypeScript, JavaScript, React, MySQL)

Dec 2022 - Present

- Streamlined user creation flow to allow instant assignments of required system tutorials to new users with PHP and JavaScript. Resulted in 34% of users created with learnings attached
- Led initiative establishing automated unit testing for customer-facing React application. Built out initial tests using Jest and Enzyme and configured GitLab CI/CD pipeline to run tests on every commit
- Introduced comprehensive logging for two factor authentication preference updates, recording 10000+ weekly events to a MySQL audit table
- Mentored, pair programmed, and served as point of contact for newer team members to accelerate their learning

Rev.com

Austin, TX

Software Engineer II (C#, TypeScript, React, MS SQL Server)

Oct 2020 - Oct 2022

Software Engineer I

Aug 2019 - Oct 2020

- Took ownership of project planning to overhaul the C# data model and TypeScript React UI for order special instructions. Freelancers responded with over a 95% positive satisfaction rate.
- Worked directly with project lead to launch sales tax collection for US customers
 - Revised C# order placement logic to levy sales tax and generate SQL records for all desktop orders
 - Built tax exemption page with React and a RESTful API, yielding 100+ applications within a week
 - Designed address suggestion and autocomplete React component using the Google Maps JavaScript API
- Facilitated new microservice creation using C#, GraphQL, and AWS DynamoDB to power marketplace pricing
- Migrated customer prepayment flows in C# to use secure, single-use credit card tokens
- Mentored and led code reviews for intern over 3 months to support their onboarding experience and learning

ExxonMobil

The Woodlands, TX

Software Engineering Intern

May 2018 - Aug 2018

- Created responsive SAP metrics website using HTML/CSS and the Tableau JavaScript API, reducing 8 hours per month of manual report generation for the team

SKILLS

Languages
