WORK EXPERIENCE

Paycom

Irving, TX

Senior Software Developer (PHP 8, JavaScript, TypeScript, React, MySQL)

June 2024 - Present

Software Developer

Dec 2022 - June 2024

- Architected MVC service enabling instant system tutorial assignments to newly created users using PHP and JavaScript. Resulted in 40% of new users created with tutorials assigned in the first month of release
- Led initiative establishing automated unit testing for customer-facing React application. Built out 30 initial tests using Jest and Enzyme and configured GitLab CI/CD pipeline to run tests on every commit
- Defined implementation strategy and planned JIRA tickets for JavaScript library upgrades on 15 high-usage pages
- Refactored section of legacy user access calculation into its MVC equivalent for efficiency and large client support
- Built audit service responsible for logging 10000+ weekly two factor authentication updates to a MySQL table
- Mentored, pair programmed, and served as point of contact for newer team members to accelerate their learning

Rev

Austin, TX

Software Engineer II (C#, React, TypeScript, MS SQL Server)

Oct 2020 - Oct 2022

Software Engineer I

Aug 2019 - Oct 2020

- Took ownership of project planning to overhaul the C# data model and TypeScript React UI for order special instructions. Freelancers responded with over a 95% positive satisfaction rate
- Worked directly with project lead to launch sales tax collection for US customers
 - Revised C# order placement logic to levy sales tax and generate SQL records for all desktop orders
 - Created tax exemption page with React and a RESTful API, yielding 100+ applications within a week
 - Developed address suggestion and autocompletion React component using the Google Maps JavaScript API
- Facilitated microservice creation using C#, GraphQL, and AWS DynamoDb to power marketplace pricing
- Migrated customer prepayment flows in C# to use secure, single-use credit card tokens from payment processor
- Mentored and led code reviews for intern over 3 months to support their onboarding experience and learning

ExxonMobil

The Woodlands, TX

Software Engineering Intern

May 2018 - Aug 2018

- Introduced SAP metrics reporting website using the Tableau JavaScript API and HTML/CSS, saving the team 8 hours a month of manually aggregating data and generating reports
- Engaged in multiple stakeholder interviews and adhered to user-centered design principles to boost site usability
